

## Pool Hayes Academy

### Accessibility Plan 2018 - 2021

Pool Hayes Academy has been described as having a 'welcoming and delightfully happy environment in which pupils thrive and want to do their best.' We want all children to enjoy school, to be challenged to achieve their very best, and to consider their time at the school as their own 'learning adventure'. We are committed to giving all of our children every opportunity to achieve the highest of standards. We do this by taking account of pupils' varied life experiences and needs. We offer a broad and balanced curriculum and have high expectations for all children. The achievements, attitudes and well-being of all our children matter.

#### **Purpose of Plan**

This plan shows how Pool Hayes Academy intends, over time, to increase the accessibility of our school for disabled pupils, staff, parents/carers and visitors.

#### **Definition of disability**

A person has a disability if he/she has a physical or mental impairment that has a substantial and long-term adverse effect on his/her ability to carry out normal day- to-day activities.

#### **Areas of planning responsibilities**

- Increasing access for disabled pupils to the school curriculum (this includes teaching and learning and the wider curriculum of the school such as participation in after-school clubs, leisure and cultural activities or school visits)
- Improving access to the physical environment of schools (this includes improvements to the physical environment of the school and physical aids to access education)
- Improving the delivery of written information to disabled pupils (this will include planning to make written information that is normally provided by the school to its pupils available to disabled pupils. The information should take account of pupils' disabilities and pupils' and parents' preferred formats and be made available within a reasonable timeframe)

#### **Contextual Information**

Pool Hayes Academy has been in its current location since 1965. The Academy has 58 classrooms and 9 practical spaces for PE and performance. The school library is located in the main foyer area as is the Assembly Hall. The school reception is located at the front of the main school entrance. Wheel Chair Access is via a ramp from the school car park. This arrangement will soon change as the academy opens a new off car park reception at the entrance to the academy.

### **Current Range of known disabilities**

- The school has children with a range of disabilities to include moderate and specific learning disabilities.
- We have a small number of pupils who have a hearing impairment.
- We have an additional provision for students with speech and language and communication difficulties.
- At present we have no wheelchair dependent pupils, parents or members of staff.
- We have one member of staff with mobility issues who requires a ground floor classroom.

### **Increasing access for disabled pupils to the school curriculum**

Improving teaching and learning lies at the heart of the school's work. Through self-review and Continuous Professional Development (CPD), we aim to enhance staff knowledge, skills and understanding to promote excellent teaching and learning for all children. We aim to meet every child's needs within mixed ability, Inclusive classes.

It is a core value of the school that all children are enabled to participate fully in the broader life of the school. Consequently, all children have always been permitted to attend age relevant after school clubs, leisure and cultural activities and educational visits. The only exception would occur if a child had breached school rules when deprivation of club attendance may be used as a suitable short-term sanction and to ensure the safety of others.

## Improving access to the physical environment of the school

Pool Hayes Academy is continuing to grow and develop – we have recently relocated and built a new reception area for the academy.

Provision, in exceptional cases, will be negotiated when a pupil’s specific needs are known.

We have a wide range of equipment and resources available for day to day use. We keep resource provision under constant review. The schools Improvement planning process is the vehicle for considering such needs on an annual basis.

### Improving the delivery of written information to disabled pupils

This will include planning to make written information that is normally provided by the school to its pupils available to disabled pupils. Examples might include handouts, textbooks and information about school events. The information should take account of pupils' disabilities and pupils' and parents' preferred formats and be made available within a reasonable timeframe.

In planning to make written information available to disabled pupils we again need to establish the current level of need and be able to respond to changes in the range of need. The school will need to identify agencies and sources of such materials to be able to make the provision when required. The schools ICT infrastructure will enable us to access a range of materials supportive to need.
