

February 2026

Dear Parent/Carer

As the summer term approaches, I am writing to remind you that at Pool Hayes Academy, we are privileged to have extensive school fields where Pool Hayes Lane needs to be crossed in order to access them. During PE lessons, where the school field is required, your child will need to safely cross the road in order to access the playing area. Risk assessments are in place and pupils are regularly briefed on the safety behind crossing the road. School fixtures take place down the field, where pupils after school will be able to make their way to the field to complete the fixture.

If you have any queries regarding your child accessing our field site, please do not hesitate to contact me on the school number – 01902 368147.

If we do not receive a response from you, we will assume that you give consent for your child to access the field and therefore be able to access the full PE curriculum.

Mr L French
Head of Physical Education
